Innovation • Investment • Impact

**The Capital Meets Policy Dialogue™** is the premier annual summit between senior policymakers and major capital providers that takes place across three continents - Asia, Africa and Europe. It brings the most influential voices on both sides together to debate solutions to the most pressing issues facing capital investment, value creation and policymaking.

Woven intentionally close to a technology theme with potential for high growth and value creation at scale, the dialogue aligns two critical stakeholders of economic progress towards an informed and enabling outcome.

# The Dialogue continues to grow in strength, shaping the narrative across 3 continents
